Forecast For Dumfries, Galloway, Lothian & Borders
Issued by Met Office Aberdeen
at 1600 on Monday 18 Jan 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Some brightness to start Tuesday but rain spreading north.

This Evening and Tonight:
Cloud building overnight, bringing some patchy rain to southern most areas, but remaining dry in the north. Frost forming towards dawn rural northern parts away from west coast. Minimum temperature -1 deg C (30 deg F).

Tuesday:
Cloudy but dry morning for most but becoming overcast with rain increasingly encroaching from the south and turning to sleet and snow at times later. Maximum temperature 6 deg C (43 deg F).

Outlook for Wednesday to Friday:
Rain, snow likely Wednesday, perhaps clearer later. Brisk northerly winds bringing wintry outbreaks for Thursday. Cold in northerly breezes Friday, but mostly dry and bright.
